TO WHOMSOEVER IT MAY CONCERN

This is to certify that M/s Utility Engineers, have supplied "HOERBIGER" make Valves for CO₂ compressor, K.G.Khosala make in Methanol Plant for HP stage discharge. These valves had installed on 28/04/2003 and till date working normal without any problem or break down. These valve also enhanced the MTBF of the compressor valves which ultimately reduced the down time of the compressors.

In view of above the performance of these valves supplied by M/s Utility Engineers is quite better than the previous valves.
